

Create UI to interact with Application:

```
1 import './App.css';
2 import {
3   createBrowserRouter,
4   createRoutesFromElements,
5   Route,
6   RouterProvider,
7 } from 'react-router-dom';
8 import Login from './components/Login';
9 import Register from './components/Register';
10 import Home from './components/Home';
11 import DashBoard from './components/Dashboard';
12 import AdminDashboard from './components/AdminDashboard';
13 import AgentDashboard from './components/Agent';
14
15 const router = createBrowserRouter(
16   createRoutesFromElements(
17     <Route>
18       <Route path="/" element={<Login />} />
19       <Route path="/register" element={<Register />} />
20       <Route path="/dashboard" element={<DashBoard />} />
21       <Route path="/admin" element={<AdminDashboard />} />
22       <Route path="/agent" element={<AgentDashboard />} />
23     </Route>
24   )
25 );
26
27 const App = () => {
28   return (
29     <div className="App">
30       <RouterProvider router={router} />
31     </div>
32   );
33 }
```
